

! DRAIN CLOG ADVICE !

Just a friendly reminder that Pearland Acres is not responsible for all sewer blockages. YOU are responsible for all sewer blockages in your drain line up to our main line. We don't clear lines that YOU blocked... you will need to call a plumber for that.

“Disposable” bathroom wipes, Feminine products AND grease are the #1 causes of blockages in YOUR drain lines.

Waste Basket

Toilet

Please throw them in the Waste Basket... NOT the toilet.

They can also clog up the main drain pipes for all your neighbors.

They also clog the sewer plant and cost us over \$500 to clear. We just had to clear another one today. Bad clogs can shut down or destroy the sewer plant pumps for days. If that happens, dirty waste water may back up into your home!

PLEASE do NOT use the toilet as a waste basket.
